SUBJECT: CERTIFICATE OF COMPLIANCE NO. 9372, REVISION NO. 2, FOR THE
MODEL NO. TN-B1 PACKAGE

Dear Mr. Tate:

This letter acknowledges receipt of your letter dated September 6, 2018, requesting our review of the supplemental analyses you provided for removing the condition of your certificate of compliance (CoC), Revision No. 1, stipulating that ATRIUM 11 fuel can only be manufactured from commercial grade uranium.

We have established a schedule for this amendment request which allows for the staff to issue a possible request for additional information (RAI) in December 2018. Staff already anticipates the need for a consolidated application reflecting explicitly all authorized contents and their supporting analyses.

Please reference Docket No. 71-9372 and EPID L-2018-LLA-0256 in future correspondence related to this request. If you have any questions regarding this matter, I may be contacted at (301) 415-7505.

Sincerely,

/RA/
