Subject: [External_Sender] Nuclear Waste through North Texas Residential Areas

Are you folks out of your minds? Running nuclear waste through residential areas sounds like a recipe for disaster! Please consider alternative measures to avoid this massive exposure to a mishap or terrorist act. If we ran the line through Washington, D.C. would you be blasé about it?

We are very concerned taxpayers who live with in 2 miles of the Cotton Belt Line; breathing humans who want to keep breathing.
