Subject: [External_Sender] Nuclear waste transported to West Texas

Please leave nuclear waste where it is. Texans don't want national nuclear toxic waste stored in West Texas and surely don't want it transported over land through Dallas/Fort Worth to final destination

Don't make others' problems our problem, don't pass the problem to Texas- keep problem where it is until local solution is found.

Leaving it where it is creates urgency; transporting to West Texas just kicks the can down the road, and in Texas' backyard.
