**Subject:** [External\_Sender] temporary storage of nuclear materials in West Texas

To whom it may concern:

I urge you to hold public meetings, to extend the comment and intervention deadlines, and to fully consider all the dangers from high-level waste storage and transport in the WCS Environmental Impact Statement (EIS). It cannot be in any way, economical, safer, practical to move all this deadly material across country just to locate it at a temporary facility, and then do it all over again when and if a permanent facility is found.

Thank you,  
Craig Smith
