Mr. Newsome:

This refers to your request to amend your license dated September 5, 2018. In order to continue our review of your request, the following additional information is needed:

1. The NRC recently changed the format of their materials license, therefore we need your current inventory of radioactive material possessed by you at the 3 locations listed on your current license. Please include the model of the gauge, the activity and isotope of the radioactive material in each gauge, and the total amount of gauges and radioactive material that you would like to possess on your license.
