

UNITED STATES
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

October 24, 2018

Mr. Robin DeLaBarre
Office of Nuclear Energy, Safety
& Security, Room 33200 HST
Bureau of International Security
& Nonproliferation
U.S. Department of State
2201 C Street, NW
Washington, DC 20520

Dear Mr. DeLaBarre:

Enclosed is a revised application (XW019), dated August 30, 2018, received by the U.S. Nuclear Regulatory Commission, from Perma-Fix Northwest Richland, Inc. (PFNW) to replace the application and supporting information that was forwarded to you on January 24, 2013. The revised application removes all references to an import license, and provides specific details regarding the waste streams that will be exported to Mexico after processing/treatment at Perma-Fix's Perma-Fix Northwest (PFNW) and Diversified Scientific Services, Inc., (DSSI) facilities.

Before taking action on this revised application, we would appreciate your views, in accordance with established procedures and from the overall perspective of the Executive Branch, as to whether the requested export meets the applicable criteria in the Atomic Energy Act of 1954, as amended.

Sincerely,

A handwritten signature in black ink, appearing to read "Peter J. Habighorst", is written over a large, stylized "X" mark.

Peter J. Habighorst, Chief
Export Controls and Nonproliferation Branch
Office of International Programs

Enclosure:
Export License Application, XW019
