## General Comment

Dear Sir/Madam:

My husband and I are vehemently opposed to the latest version of the corporate dump nuclear waste in Texas. In addition to putting Texans at risk, this plan would transport 40,000 tons of lethal waste through our major cities by rail close to homes, schools and businesses.

If allowed to go forward, the plan also would:

-Undermine federal efforts to develop a new, less risky approach to radioactive waste storage and disposal.

- Remove incentives to find a permanent solution to our waste crisis putting Texas at risk of becoming an unsafe de facto dump site for the country.

-Saddle millions of Americans with the financial and health risks associated with transporting toxic waste.

FOR THE HEALTH AND WELL-BEING OF CURRENT AND FUTURE GENERATIONS, PLEASE TAKE THE HEALTHY, RIGHT, FAIR, JUST, AND HUMANE ACTION AND OPPOSE THIS LATEST SCHEME TO DUMP NUCLEAR WASTE IN TEXAS!!!!!!!

Sincerely yours,  
Mary Ann and Frank Graffagnino,  
Tucson, AZ
