DOMINION ENERGY NUCLEAR CONNECTICUT, INC. (DENC)
MILLSTONE POWER STATION UNITS 2 AND 3
NRC REGULATORY ISSUE SUMMARY 2018-02
PREPARATION AND SCHEDULING OF OPERATOR LICENSING EXAMINATIONS

On April 25, 2018, Dominion Energy Virginia submitted a response (Serial No. 18-179) to NRC Regulatory Issue Summary 2018-02, providing requested information on proposed site-specific operator licensing examination schedules and the estimated number of applicants planning to take those examinations and/or the NRC's generic fundamentals examinations (GFEs) for Millstone, North Anna and Surry Power Stations.

Dominion Energy Virginia also submitted an updated Form 536 (Serial No. 18-179A) on September 24, 2018, for Surry Power Station. That letter did not change information for Millstone and North Anna Power Stations. However, this letter is enclosing an updated Form 536 for Millstone Power Station only. North Anna Power Station information remains unchanged from the April 25, 2018 letter.

No new commitments are intended by this letter. If you have any questions concerning this information, please contact Mr. Frank Winks at (804) 273-4610.

Sincerely,

A handwritten signature in black ink, appearing to read "Gerald T. Bischof".

Gerald T. Bischof
Senior Vice President-Nuclear Operations and Fleet Performance

Enclosure: Updated NRC Form 536 for Millstone Power Station
