NOTICE OF VIOLATION

Dear Mr. Marakah:

On November 1, 2018, we received your letter dated October 30, 2018 (NRC Agencywide Documents Access and Management System (ADAMS) Accession ML18310A094) responding to the U.S. Nuclear Regulatory Commission's (NRC's) Notice of Violation; EA-18-102, dated October 4, 2018. The Notice of Violation cited Midwest Engineering and Testing Corporation with a failure to file for reciprocity at least 3 days prior to engaging in licensed activities in areas of exclusive federal jurisdiction. After reviewing the information provided in your response, we have concluded that your corrective actions appear to adequately address the regulatory noncompliance. Please note that we may, at a future date, perform an inspection of your activities operating under a general license pursuant to 10 CFR 150.20, at which time we will review the implementation of your corrective actions to determine that compliance has been maintained.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access Management System (ADAMS), accessible from the NRC's website at <http://www.nrc.gov/reading-rm/adams.html>. The NRC also includes significant enforcement actions on its website at <http://www.nrc.gov/reading-rm/doc-collections/enforcement/actions>.
