Subject: Westinghouse Pre-Application Meeting Request for Proposed Change to the Controlled Access Area
Date: Wednesday, November 14, 2018 7:52:00 AM

Nancy,

As discussed during the site visit held on November 8, 2018, and via phone and email, see below, Westinghouse has requested a pre-application meeting in early December 2018 to discuss Westinghouse's plans to remodel the sites Administrative Building and modify the Controlled Access Area (CAA). This will require an amendment to the physical security plan. The purpose of the pre-application meeting is for the Westinghouse security manager to provide NRC staff with an overview of the project and describe the plans to revise the physical security plan.

The email below and this response will be docketed to support opening a new Cost Activity Code to support this pre-application meeting and the subsequent submittal and review.

Sincerely,

Matt Bartlett

Subject: [External_Sender] Amendment Request

Matt,

As part of our Columbia modernization efforts, we are in the early, conceptual stages of planning a change to our Controlled Access Area (CAA). This change would provide enhanced access control to our facility.

It is premature at this point to have a meeting as we are still conceptually figuring out what makes sense. We are targeting to have the necessary details in early December and would like to get on your schedule for a pre-application meeting in that time frame.

I just wanted to give you an early heads up.

Thanks!

Nancy
