Arlington TX, 76011-4511

Subject: U.S. Geological Survey, License 05-01399-08

Dear Sir or Madame,

In letters dated: 1) May 30, 2017 (Control No. 599730); 2) May 31, 2017 (also Control No. 599730); and 3) October 6, 2017 (Control No. 601428), the US Geological Survey (USGS) had submitted information in support of the unrestricted release of the locations described in the letters. The USGS requests withdrawal of these letters and the cessation of licensing activities associated with the letters. The USGS intends to resubmit, in entirety, decommissioning and unrestricted release documentation associated with these locations and additional USGS facilities.

Please contact me or James Paces, USGS Radiation Safety Committee Chairperson, at 303-236-0533 or jbpaces@usgs.gov, if you have any questions about this request.

Sincerely,

A handwritten signature in black ink, appearing to read "JCruz", written over a horizontal line.

Jeffrey Cruz
USGS Radiation Safety Officer
