Subject: [External_Sender] Interim Spent Fuel Rod Storage

I am writing to record my opposition to the proposed WCS Consolidated Interim Spent Fuel Storage Facility Project proposed in Andrews County, Texas. The need for public input to this question is needed and at one time required. To move forward without public hearings is to eliminate the vehicle by which all communities can have a forum to discuss the future of their communities and is basically governance without representation.

Please make plans for public hearings not only in Andrews County, but along all the transportation routes under consideration. Your assistance in facilitating this request is appreciated.
