¹Privacy Act Information - Personal or sensitive information should not be included in event descriptions (e.g., names, personal addresses, or-social security-numbers.)

²For example, events involving lost, actual or attempted theft, sabotage, or diversion of radioactive materials or devices containing “high-risk” sources in quantities greater than or equal to the *quantities of concern* (i.e., quantities greater than or equal to Category 2 sources listed in the International Atomic Energy Agency’s Code of Conduct and as outlined in reporting requirements in 10 CFR Part 20.2201.)

³A revision to the U.S. Code assigns lead responsibility for material events involving possible theft or terrorist activities to the Federal Bureau of Investigation (FBI.)

⁴Sample fax to the NRC Operations Center is available in Appendix D of FSME procedure SA-300.

⁵The NRC Operations Center staff will promptly notify the appropriate Region Duty Officer (RDO) and Headquarters staff of Agreement State events. Therefore, no separate notification to other NRC staff by an Agreement State is necessary.

⁶An example of the minimum basic event information required for a complete record is provided in Appendix E of SA-300.

⁷Voluntary reporting is a joint national effort of the NRC and the Conference of Radiation Control Program Directors (CRCPD) to track certain non-AEA, unlicensed or non-reportable AEA lost and found radioactive material.
