Teryl West, Radiation Safety Officer
AAA Management & Associates, Inc.
12300 Samantha Court
Upper Marlboro, MD 20774

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Teryl West:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Arthur Burritt, Chief

P.O. Box 868
Bridgewater, MA 02324

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Richardson:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Mark J. Olsavsky, RSO
ACA Engineering, Inc.
410 N. Balph Avenue
Pittsburgh, PA 15202

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Olsavsky:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). Brian Prowell, Principal Engineer
Advanced Materials Services, LLC
2515 E. Glenn Avenue, Suite 107
Auburn, AL 36830

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Prowell:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

10310B Baltimore National Pike
Ellicott City, MD 21042

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Derdeny:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

CALENDAR YEAR 2019

Dear Dr. Kurikeshu:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Bethel Park, PA 15102

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Mobley:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

November 1, 2018

R. Shannon Cavaliere, RSO
Arc Environmental, Inc.
1311 Haubert Street
Baltimore, MD 21230

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Cavaliere:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

ARM Group, Inc.
1129 West Governor Road
P.O. Box 797
Hershey, PA 17033

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Wendling:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Beckman Coulter, Inc.
MS-31-A00
11800 SW 147th Avenue
Miami, FL 33196-9015

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Huckaba:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Egger:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Oak Ridge, TN 37830

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Douglas:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

November 1, 2018

Paul Ike Nipper, QA Manager
Bionomics, Inc.
P. O. Box 817
Kingston, TN 37763

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Nipper:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

George A. Gleason, RSO
Bruker Detection Corporation
400 Manning Road
Billerica, MA 01821-3915

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Gleason:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Darryl Schultz, NDT Manager/RSO
Certified Testing Laboratories, Inc.
155 Route 130
Bordentown, NJ 08505

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Schultz:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Chase Environmental Group, Inc.
11450 Watterson Court
Louisville, KY 40299

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Cannata:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Lenoir City, TN 37771

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Eisenberg:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

November 1, 2018

Stephen J. Vargo, RSO
Civil Design Solutions, Inc.
1331 State Avenue
Coraopolis, PA 15108

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Vargo:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

King of Prussia, PA 19406

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Figueroa:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Suite 100
Baltimore, MD 21209

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Connor:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). Lexington, KY 40505

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Brashear:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

November 1, 2018

Michael S. Kelly, dABR
Daves & Kelly, Inc
P.O. Box 91558
Louisville, KY 40291

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Kelly:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Ryan Fahey, Director of Operations
Decontamination Decommissioning &
Environmental Services, LLC
345 North Avenue, 2nd Floor
Wakefield, MA 01880

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Fahey:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). Suite 301
Bridgeville, PA 15017

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. North:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

45662 Terminal Drive, Suite 110
Dulles, VA 20166

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Weiye Ma:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Earthtech, Inc.
966 Pleasant Hill Road
Somerset, PA 15501

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Matisko:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Arthur Burritt, Chief

November 1, 2018

Tim Osborne, RSO
Ecology Services, Inc.
9135 Guilford Road
Columbia, MD 21046

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Osborne:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Jay Denmark, RSO
ECS Limited
7064 Davis Creek Road
Jacksonville, FL 32256

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Denmark:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Management Representative
Elekta, Inc.
400 Perimeter Center Terrace
Suite 50
Atlanta, GA 30346

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Ms. Chontofalsky:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

George S. Kelland, RSO
E.T. & L. Corp.
873 Great Road
P. O. Box 295
Stow, MA 01775

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Kelland:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

FES Group, LLC
772 30th Avenue North
St. Petersburg, FL 33704

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Prenatt:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Arthur Burritt, Chief

November 1, 2018

David Milam, RSO
Gamma-Tech, LLC
200 Benham Street
Dayton, KY 41074

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Milam:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Janis Asare-Bediako, RSO
Global Geotechnical Consultants, LLC
14879 Farm Creek Drive, Unit M
Woodbridge, VA 22191

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Janis Assare-Bediako:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

November 1, 2018

Scott Rifkin, President
Green Street Environmental, LLC
6304 Blair Hill Lane, Suite 2
Baltimore, MD 21209

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Rifkin:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Daniel J. Hayes, Jr., VP & RSO
Hayes Testing Laboratory, Inc.
2521 Holloway Road
Louisville, KY 40299

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Hayes:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

P.O. Box 6158
400 West Main Street
Christiansburg, VA 24068-3313

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Lafon:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read 'Arthur Burritt', written in a cursive style.

November 1, 2018

Chris Vanderpool, RSO
Hopewell Designs, Inc.
5940 Gateway Drive
Alpharetta, GA 30004

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Vanderpool:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

November 1, 2018

Don Bowes, RSO
IB3 Global Solutions
97 Midway Lane
Oak Ridge, TN 37830

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Bowes:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Chesapeake, VA 23325

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Ms. Turner:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). JDH Inspection Services
6 Progress Avenue
Nashua, NH 03062

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Baudanza:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). Philadelphia, PA 19107

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Henry:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Arthur Burritt, Chief

David R. Bisson, RSO
Johns Hopkins University
Applied Physics Laboratory
11100 Johns Hopkins Road
Laurel, MD 20723

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Bisson:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

KING OF PRUSSIA, PA 19406-2713

November 1, 2018

Mr. Jason Vanover, President
JPC Nuclear Technologies, LLC
120 Speer Road, Suite 2
Chestertown, MD 21620

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Vanover:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sunny Kim, RSO
Kim Engineering, Inc.
11900 Baltimore Avenue, Suite F
Beltsville, MD 20705

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Kim:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Larcher Medical Imaging, LLC
2161 Capes Cove Drive
Sherrills Ford, NC 28673

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Larcher:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). Legacy Engineering, Inc.
6424 Beach Boulevard
Jacksonville, FL 32216

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Ellis:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Arthur Burritt, Chief

New Galilee, PA 16141

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Tomon:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Joge Peralta, Regional Technical
Specialist - CNA, AMEC
Malvern Panalytical, Inc.
117 Flanders Road
Westborough, MA 01581

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Peralta:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

100 Airside Drive
Moon Township, PA 15108

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Neill:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

MikRon, Inc.
16 Pond Edge Trail
Wareham, MA 02571

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Thomson:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

151 Reno Avenue
New Cumberland, PA 17070

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Richards:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

KING OF PRUSSIA, PA 19406-2713

November 1, 2018

Neil Kiely, RSO
North Wind, Inc.
1425 Higham Street
Idaho Falls, ID 83402

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Kiely:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

November 1, 2018

Justin Willhite, RSO
Northrop Grumman Systems Corporation
201 Electronics Boulevard
Huntsville, AL 35824

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Willhite:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Chris Clemmey, NDE Supervisor
Ocean State Technical Services, LLC
55 Chapman Street
Providence, RI 02905

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Clemmey:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Monroeville, PA 15146

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Ms. Lewis:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

One Source Inspection
1011 Middlesex Blvd.
Gibsonia, PA 15044

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Billington:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

November 1, 2018

Thomas McKittrick, RSO
Philips Healthcare
3000 Minuteman Road
Andover, MA 01810

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. McKittrick:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

William Button, RSO
Philotechnics, Ltd
201 Renovare Boulevard
Oak Ridge, TN 37830

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Button:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Columbia, MD 21045

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Austin:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). Schuylerville, NY 12871

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Stanton:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). Radiation Safety Services LLC
8819 Joe Daniels Road
Knoxville, TN 37931

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Swindell:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

November 1, 2018

Craig A. Caris, RSO
Ronan Engineering
8050 Production Drive
Florence, KY 41042

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Caris:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Paul Madairy, CHP
Radiation Safety Officer
RSO, Inc.
5206 Minnick Road
Laurel, MD 20707

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Madairy:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

R.W. Gillespie & Associates, Inc.
20 Pomerleau St., Suite 100
Biddeford, Maine 04005

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Grady:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

November 1, 2018

Eric J. Laning, Technical
Services Manger
Safety and Ecology Corporation
26 East 9th Street
Newport, KY 41071

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Laning:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Dave Fyffe, P.E.
President/RSO
Seal Engineering, Inc.
3323 Duke Street
Alexandria, VA 22314

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Fyffe:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Arthur Burritt, Chief

November 1, 2018

Michael St. Pierre, Vice President
Soils Engineering Services, Inc.
12 Maple Avenue Bldg. A
Pinebrook, NJ 07058-9742

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Michael St. Pierre:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Southern Earth Sciences, Inc.
7500 McElvey Road, Suite A
Panama City Beach, FL 32408

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Mitchell:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Chelmsford, MA 01824

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Chocala:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

1001 Boulders Parkway, Suite 300
Richmond, VA 23225

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Henshaw:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). Titan Inspection, Inc.
P.O. Box 3665
Williamsport, VA 17701

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Schroeder:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

November 1, 2018

Edward Dalton, Vice President/RSO
TLB Associates, Inc. (dba SaLUT-TLB)
530 McCormick Drive, Suite S
Glen Burnie, MD 21061

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Dalton:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Henry Barnes, RSO
Troxler Electronic Laboratories, Inc.
P.O. Box 12057
3008 E. Cornwells Road
RTP, NC 27709

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Barnes:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Valdosta, GA 31602

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Jones:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). University of South Alabama
Department of Radiation Safety
5795 USA Drive North; CSAB 257
Mobile, AL 36688

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Wiik:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). Radiation Safety Officer
University of Miami
Radiation Control Center
P.O. Box 016960 (R61)
Miami, FL 33101

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Pombier:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. November 1, 2018

Kenneth Walla, RSO
URS Federal Services, Inc.
P.O. Box 21025
Kennedy Space Center, FL 32815

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Walla:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read "Arthur Burritt", written in a cursive style.

November 1, 2018

Erin Henke, RSO
Vector Engineers, Inc.
1535 Old Finchville Road
Shelbyville, KY 40065

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Erin Henke:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

5518 Force Four Parkway
Orlando, FL 32839-2968

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Perez:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Kenneth Smithey
Radiation Safety Officer
Turner Specialty Services, LLC
9601 N. Palafox Street, #5B
Pensacola, FL 32534

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Smithey:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Pittsburgh, PA 15218-2402

SUBJECT: REMINDER FOR INITIAL RECIPROCITY FILING OF NRC FORM 241 FOR
CALENDAR YEAR 2019

Dear Mr. Whisel:

Agreement State licensees cannot perform work in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters without either (a) filing for reciprocity using an NRC Form 241 "Report of Proposed Activities in Areas of Exclusive Federal Jurisdiction, Non-Agreement States, and Offshore Waters;" in accordance with 10 CFR 150.20(b) or (b) applying for a specific NRC license. An area of exclusive Federal jurisdiction is an area over which the Federal government exercises legal control without interference from the jurisdiction and administration of State law. For example, if the work is to be performed on Federal property in an Agreement State, the licensee must first determine the jurisdictional status of the area where it plans to work. If the licensee is unsure about the jurisdictional status of the work location on Federal land, it should contact the Federal agency that controls the facility where the work is to be performed.

To apply for reciprocity, you must submit the following information when filing an NRC Form 241 the first time (initial filing) in calendar year 2019.

1. NRC Form 241, "Report of Proposed Activities in Non-Agreement States, Areas of Exclusive Federal Jurisdiction, or Offshore Waters," accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc241.pdf>.
2. Current Agreement State Radioactive Materials License (deemed timely letter from the State issuing the license is acceptable if license has expired).
3. Fee required by Category 16, 10 CFR 170.31, either by check or credit card. Credit card payments can be made using NRC Form 629, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/forms/nrc629.pdf>.

Guidance on required information and how to file NRC Form 241 may be found in NUREG-1556, Volume 19, Revision 1, Sections 5 and 7, accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v19/>. The initial filing must be made to the NRC at least three days prior to conducting initial activities in 2019. The completed NRC Form 241 should be e-mailed for NRC review to the electronic mailbox at R1Reciprocity.Resource@nrc.gov (preferred method), faxed to 610-337-5269, or mailed to the letterhead address.

If the NRC determines that the NRC Form 241 contains omissions or errors, the staff will contact the licensee in an attempt to obtain the correct information. If the discrepancies cannot be resolved and the Agreement State licensee does not qualify for the General License, staff will inform the licensee of this determination and indicate that the licensee has not complied with the requirements of 10 CFR 150.20, and work is not to be performed in areas of exclusive Federal jurisdiction, non-Agreement States, or in offshore waters, until NRC receives the required information.

Under the General License, licensees conducting reciprocity activities, including storage or use of material, are limited to a total of 180 days in any calendar year. Reciprocity activities conducted in offshore waters are not subject to the 180-day limit. NRC tracks reciprocity usage on the basis of approved usage days. NRC will not approve any activity, under the General License, that causes the total usage days to exceed 180 days. It is important that you track the days of use and submit changes to dates of work when applicable. Licensees who perform activities using separate Agreement State licenses must submit separate reciprocity requests. For example, if a licensee has separate radiography and service licenses, and performs reciprocity work under both, the licensee must submit a separate NRC Form 241 with evidence of the appropriate fee for the initial filing for each license. The activities under reciprocity for each license will be limited to 180 days.

NRC will perform inspections of your licensed activities at the listed work site location(s). Agreement State licensees operating under reciprocity in areas of NRC jurisdiction must conduct activities involving radioactive materials in accordance with the conditions specified in the licensee's Agreement State license, representations made in NRC Form 241, and other rules, regulations, and orders of NRC, now or hereafter in effect. Failure to comply with these regulations or to conduct your radiation safety program in compliance with NRC regulations may result in NRC enforcement action(s). Such actions could include the issuance of a notice of violation, the proposed imposition of a civil penalty, or an order suspending, modifying, or revoking the General License as specified in the NRC Enforcement Policy. This document is available on the following internet address:

<https://www.nrc.gov/about-nrc/regulatory/enforcement/enforce-pol.html>.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at: <https://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

A handwritten signature in black ink, appearing to read "Arthur Burritt", written in a cursive style.

Arthur Burritt, Chief
Commercial, Industrial, R&D
and Academic Branch
Division of Nuclear Materials Safety
Region I
