Subject: RAI, Using sources in the field.

Discussion: The US Military Academy had requested in a letter to use all of their material including unsealed material in at Camp Shea. I called to see what they really wanted to do and Dr. Schultz told me that wanted to take some sealed sources of different isotopes into the field. I discussed that I could change the requirement to only allow sealed sources in the field location. He said that would work for what they needed. I asked if he wanted to include Range 11 as well, and he said that he would.

Action Required: Amend license to allow all sealed sources into the field sites.
