Re: NRC License 13-18879-01

Dear Sir/Madam:

We would like to amend our NRC License No. 13-18879-01 to discontinue our Iridium-192 HDR remote afterloading brachytherapy program; also we would like to discontinue our Cesium-137 manual brachytherapy program. The documents regarding discontinued these two programs have been inspected by NRC inspector Dennis P. O'Dowd on August 30, 2018. Please release the HDR room and Cesium-137 sources storage room for our non-restriction uses.

If you have any question please contact me at (574) 389-7374.

Sincerely,

Liang (Larry) Wang, M.S., DABR
Radiation Safety Officer
