

FEMA

November 13, 2018

Mr. Kriss Kennedy
Regional Administrator
U.S. NRC, Region IV
1600 East Lamar Boulevard
Arlington, TX 76011-4511

Dear Mr. Kennedy:

Enclosed is a copy of the radiological emergency preparedness final report for the Arkansas Nuclear One (ANO), Medical Services and Reception Center Drills evaluated on September 27, 2018. FEMA Region 6 staff evaluated the drills at the Pope County Emergency Medical Services St. Mary's Station, St. Mary's Regional Medical Center in Russellville and the City of Paris Reception Center. There were no Level 1 Findings, two Level 2 Findings identified that were corrected during the drill. There were no Plan Issues identified.

Based on the results of the drills, the planning and preparedness for the State of Arkansas and affected local jurisdictions provide reasonable assurance that appropriate measures can be taken to protect public health and safety in the event of a radiological release. Therefore, 44 CFR Part 350 approval of the offsite radiological emergency response plans and preparedness for the State of Arkansas, specific to Arkansas Nuclear One, will remain in effect.

Sincerely,

A handwritten signature in black ink that reads "Denise Bordelon". The signature is written in a cursive style.

Denise Bordelon

Technological Hazards Branch Chief
