To whom it may concern,

I oppose the proposed Waste Control Storage facility for high level nuclear waste being built in Andrews county, or anywhere in the Permian Basin. There are far too many risks involved, both in the transportation and storage of the casks. Risks that can destroy our lives and our homes. And, since the proposed site is situated over the Ogalalla aquifer, any accidents have the potential to spread much further. Find another patsy. Or better yet, find a way to neutralize nuclear waste instead of just storing it.

Sincerely,  
Gail Sims
