SUBJECT

Additional Information Needed for License Renewal

SUMMARY

During our review of your license renewal application dated June 11, 2018, it appeared that your application had not been completely prepared in accordance with the guidance in NUREG 1556, Vol. 1, Rev. 2, "Consolidated Guidance about Materials Licenses: Program-Specific Guidance about Portable Gauge Licenses."

1. In your application, you referenced outdated guidance documents. Please review the applicable guidance in NUREG 1556, Vol. 1, Rev. 2 and the attached license application checklist. You will need to resubmit your application addressing all the areas discussed in the checklist.
2. In your application, you did not indicate if you intend to use the gauges at temporary job sites. In addition, the locations of use listed on form 313 were located outside of NRC jurisdiction. Please indicate in your re-submittal that you will be using the gauges at temporary job sites and do not include storage locations outside of NRC jurisdiction.
3. In your application, you did not provide a delegation of authority for the proposed RSO. Please provide a current delegation of authority, signed by both the RSO and senior management. A sample delegation of authority is attached to this conversation record.

ACTION REQUIRED (IF ANY)

Please submit your response by October 19, 2018, and reference it to my attention as "additional information to control number 609032" to facilitate proper handling in our office. Your response must be currently dated and signed. If you have any questions or require clarification of any of the information stated above, please do not hesitate to contact me at 630-829-9876

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's Agencywide Documents Access and Management System (ADAMS), accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

CONVERSATION RECORD (continued)

SUMMARY: (Continued from page 1)

4. In your application, you did not specifically request the quantity of each model of gauge that you would like to have listed on your license. In your response, please include the specific number of Troxler 3400 series, Troxler model 3216, and Humbolt model 5001 gauges that you would like to have listed on your license.

5. The application that you submitted which includes your Site Specific Radiation Safety Plan is potentially overly restrictive. Please either resubmit your application without these procedures; or indicate that you agree to leave these documents as-is and that you understand that by doing so the procedures will become legally binding and enforceable.
