**Subject:** REQUEST: Review and Comment on NRC's Draft Environmental Assessment re: License Termination Plan for LaCrosse Boiling Water Reactor in Vernon County, Wisconsin  
**Attachments:** LACBWR LTP Draft EA for Agency Review.pdf

Good afternoon Mr. Schmidt,

The U.S. Nuclear Regulatory Commission (NRC) is submitting a Draft Environmental Assessment (EA) related to our review of LaCrosse *Solutions* request to amend the LaCrosse Boiling Water Reactor's license to include the License Termination Plan (LTP). The NRC would like to request your review and comments on the Draft EA by **January 20, 2019**. The NRC will address comments received on the Draft EA and then publish a Final EA and a Finding of No Significant Impact in the *Federal Register*.

Please note that the Draft EA is pre-decisional information that is limited to the use of the State and its staff. Disclosure or distribution of the EA is prohibited without prior NRC permission. The file is password protected so I will send the password in a separate email. The NRC staff intends to make the final EA publicly available. References used in the EA are publicly available through the NRC's electronic reading room (ADAMS) at <http://www.nrc.gov/reading-rm/adams.html>. The ADAMS accession number is provided for each reference.

I've copied Mr. Zeichart on this email. I have spoken with him a few times about the project. You may send comments back to me, via email, at this address. If you or your staff have any questions or concerns, please don't hesitate to contact me. I will be out of the office Dec 24-Jan 2st for the holidays.

Sincerely,  
Jessie Muir Quintero
