

NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555-0001

January 11, 2019

Mr. Josh Hanson
Cudd Pressure Control, Inc
P.O. Box 2357
Williston, North Dakota 58801

SUBJECT: NOTICE OF AGREEMENT WITH THE STATE OF WYOMING

Dear Sir:

This is to inform you that the U.S. Nuclear Regulatory Commission (NRC) has approved an Agreement with the State of Wyoming under Section 274 of the Atomic Energy Act of 1954, as amended (the Act). The Commission has determined that the Wyoming program for the regulation of materials covered by the Agreement is compatible with the Commission's program and is adequate to protect public health and safety. Under this Agreement, Wyoming has assumed regulatory authority over the management and disposal of byproduct material as defined in Section 11e.(2) of the Act and a subcategory of source material or ores involved in extraction or concentration of uranium or thorium milling in the State. As such, the State of Wyoming has assumed regulatory authority over 14 uranium mill licenses. The remaining academic, medical, industrial and commercial licenses authorized to possess, use, or store byproduct, source and special nuclear materials in the State of Wyoming will remain under NRC's jurisdiction. The Agreement became effective on September 30, 2018.

The NRC staff will conduct periodic reviews of the Wyoming program to ensure that the terms of the Agreement continue to be met.

To clarify, even though 14 licenses associated with uranium or thorium milling activities transferred to the State of Wyoming, your license to possess, use, or store byproduct material in the State of Wyoming remains under NRC jurisdiction.

If you have any questions, you may contact Paul Michalak at (301) 415-5804 or via e-mail at Paul.Michalak@nrc.gov.

Sincerely,

/RA Kevin Williams for/

Andrea L. Kock, Director
Division of Materials Safety, Security, State,
and Tribal Programs
Office of Nuclear Material Safety
and Safeguards
