RE: License No. 24-24954-01

<laura.cender@nrc.gov>

Dear Ms. Cender:

Our Radiation Safety Officer (RSO), Jim B. Patrick, is retiring effective January 1, 2019. This letter is being submitted to request Line 12 of our license be amended to include Bryan W. Davis as our new RSO. Mr. Davis has been responsible for collecting and cataloguing all gauge related documents and has hosted a number of NRC site audits.

Please contact us if you require anything further. We appreciate your assistance with this matter.

Respectfully submitted,

MIKON Corporation

Bryan W. Davis

Hello Tammy,

Please process the attached file in as a new license amendment request. If possible when providing this case to Patty please note that I have already been in contact with the licensee regarding additional information they will need to provide and that I request this case be assigned to me since that communication link has already been established.

Please let me know if you have any questions.
