Note to Docket File 03036438 – 37-30850-01 590281 Gamma Irradiator Service (Corrected Copy)

SUBJECT: JUSTIFICATION FOR CLOSURE OF ADAMS PACKAGE FOR CORRECTED COPY 590281 – GAMMA IRRADIATOR SERVICE, LICENSE NO. 37-30850-01 / 03036438

On April 9, 2018, Ms. Elizabeth Ullrich performed a review of NRC License No. 37-30850-01, and determined that the wording in WBL's standard conditions was in error, and that the wording of Condition 12.A needs to be changed FROM "Licensed material shall only be used by, or under the supervision of..." TO "Licensed material shall only be used by, or under the supervision of and in the physical presence of ..."

In response, by Email dated April 09, 2018, Ms. Ullrich requested that a corrected copy be generated to correct the wording in Condition 12.A of NRC License No. 37-30850-01, Amendment No. 12.

Two things: 1) For some reason, that corrected copy was assigned to Mail Control No. 590281 rather than 601809, and 2) that Corrected Copy was never processed. Subsequently, an additional error in the license was identified and a Corrected Copy Package (601809) was generated. Therefore both corrections will be consolidated in the Corrected Copy for Mail Control No. 601809, Gamma Irradiator Service, License No. 37-30850-01, Amendment No. 12.

Bottom Line: Please insert this Note-To-File into ADAMS Corrected Copy Package for Mail Control No. 590281, Gamma Irradiator Service, LLC, License No. 37-30850-01 and Docket No. 37-30850-01, AND THEN CLOSE OUT THAT PACKAGE.
