**Subject:** EXT: Acceptance Review of License Amendment Request

Roy-

I just wanted to follow-up with you and document our phone call from the 21<sup>st</sup> of December. We, the NRC, have completed our acceptance review of your license amendment request and have found that there is sufficient information for us to begin our formal review. We are preparing a formal acceptance letter; however, we have decided to provide a schedule of the milestones ahead in our review and approval process. Some of those dates may require further discussion/confirmation with EPA and DOE before we finalize and document them as part of the schedule in the formal acceptance letter. However, we have reached out to EPA and DOE, and we should believe that we may have those dates identified shortly.

Also, I wanted to remind you that we do have an option for scheduling publicly announced status calls on a periodic basis, i.e., weekly, bi-weekly, monthly, that would allow an open discussion of issues requiring clarification, such as locations of supporting documentation or references. We can decide when it would be best to schedule these after the NRC staff has had an opportunity to dig into the information.

Thanks,

Jim

James Smith

Roy-

No need to mail, I'll have the attachments placed into ADAMS.

Thanks

Jim
