

ATTACHMENT 1

Change and Justification to the University of Missouri Research Reactor Facility Emergency Plan

Appendix A, Page A-1

Update Agreement Letter.

Justification for the change

This change updates the agreement between the City of Columbia and MURR, in that the City of Columbia Fire Department will respond to fires or other emergency situations should they occur at the facility.

CITY OF COLUMBIA, MISSOURI

OFFICE OF CITY MANAGER

December 19, 2018

Bruce A. Meffert, Reactor Manager
University of Missouri – Columbia
1513 Research Park Drive
Columbia, MO 65211-3400

Dear Mr. Meffert,

This letter is to reaffirm our assurance that the City of Columbia Fire Department will respond to fires or other emergency situations should they occur at the University of Missouri Research Reactor (MURR).

We understand that the research reactor staff will continue to conduct training sessions at least every two years for Fire Department personnel, including MURR facility orientation and review of selected health physics procedures specific to the MURR facility. The responsibility for maintaining and scheduling training for our Fire Department, which will participate in such training, will remain with the MURR staff in coordination with the Columbia Fire Department.

Sincerely,

John Glascock
Interim City Manager

Cc: Randy White, Fire Chief
