Subject: Opportunity to review and comment on an NRC information collection "Request for Information Pursuant to 10 CFR 50.54(f) Regarding Recommendations 2.1, 2.3, and 9.3 of the Near-Term Task Force Review of Insights from the Fukushima Dai-ichi Event"
Attachments: 2018-26746.pdf

Mitch,

The following opportunity to comment on the information collection request pertains to Dresden. If Exelon wants to provide comments, please follow the instructions below. Do not send your comments to me.

The Nuclear Regulatory Commission recently published a Federal Register Notice announcing our intent to submit information collection requests to the Office of Management and Budget (OMB) for "Request for Information Pursuant to 10 CFR 50.54(f) Regarding Recommendations 2.1, 2.3, and 9.3 of the Near-Term Task Force Review of Insights from the Fukushima Dai-ichi Event." A supporting statement describing the requested information and burden estimates are available at <http://regulations.gov> by searching docket NRC-2018-0138.

As a potential respondent to this information collection, we are interested in your feedback. Specifically, we are seeking input on the following questions by February 11, 2019:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

Comments can be submitted by going to <http://www.regulations.gov> and searching for Docket No. NRC-2018-0138. Please note that comments will be made available for public inspection. Because your comments will not be edited to remove any identifying or contact information, the NRC cautions you against including any information in your submission that you do not want to be publicly disclosed.

Thanks,

II. Background

Under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC recently submitted a request for renewal of an existing collection of information to OMB for review entitled, "NRC Form 748, National Source Tracking Transaction Report." The NRC hereby informs potential respondents that an agency may not conduct or sponsor, and that a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

The NRC published a **Federal Register** notice with a 60-day comment period on this information collection on August 1, 2018, 83 FR 37535.

1. *The title of the information collection:* NRC Form 748, National Source Tracking Transaction Report.
2. *OMB approval number:* 3150-0202.
3. *Type of submission:* Extension.
4. *The form number if applicable:* NRC Form 748.

5. *How often the collection is required or requested:* On occasion (at completion of a transaction, and at inventory reconciliation).

6. *Who will be required or asked to respond:* Licensees that manufacture, receive, transfer, disassemble, or dispose of nationally tracked sources.

7. *The estimated number of annual responses:* 18,927 (13,200 online + 480 batch upload + 5,247 NRC Form 748).

8. *The estimated number of annual respondents:* 1,400 (260 NRC Licensees + 1,140 Agreement State Licensees).

9. *An estimate of the total number of hours needed annually to comply with the information collection requirement or request:* 1,963.1 hours.

10. *Abstract:* In 2006, the NRC amended its regulations to implement a National Source Tracking System (NSTS) for certain sealed sources. The amendments require licensees to report certain transactions involving nationally tracked sources to the NSTS. These transactions include manufacture, transfer, receipt, disassembly, or disposal of the nationally tracked source. This information collection is mandatory and is used to populate the NSTS. National source tracking is part of a comprehensive radioactive source control program for radioactive materials of greatest concern. The NRC and Agreement States use the information provided by licensees in the NSTS to track the life cycle of the nationally tracked source from manufacture until disposal. NSTS enhances the ability of NRC and Agreement States to conduct inspections and investigations,

communicate information to other government agencies, and verify legitimate ownership and use of nationally tracked sources.

SUPPLEMENTARY INFORMATION:

I. Obtaining Information and Submitting Comments

A. Obtaining Information

Please refer to Docket ID NRC-2018-0138 when contacting the NRC about the availability of information for this action. You may obtain publicly-available information related to this action by any of the following methods:

- *Federal Rulemaking website:* Go to <http://www.regulations.gov> and search for Docket ID NRC-2018-0138. A copy of the collection of information and related instructions may be obtained without charge by accessing Docket ID NRC-2018-0138 on this website.

- *NRC's Agencywide Documents Access and Management System (ADAMS):* You may obtain publicly-available documents online in the ADAMS Public Documents collection at <http://www.nrc.gov/reading-rm/adams.html>. To begin the search, select "Begin Web-based ADAMS Search." For problems with ADAMS, please contact the NRC's Public Document Room (PDR) reference staff at 1-800-397-4209, 301-415-4737, or by email to pdr.resource@nrc.gov. A copy of the collection of information and related instructions may be obtained without charge by accessing ADAMS Accession No. ML12053A340. The supporting statement and burden spreadsheet are available in ADAMS under Accession Nos. ML18254A271 and ML18254A274.

- *NRC's PDR:* You may examine and purchase copies of public documents at the NRC's PDR, Room O1-F21, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852.

- *NRC's Clearance Officer:* A copy of the collection of information and related instructions may be obtained without charge by contacting NRC's Clearance Officer, David Cullison, Office of the Chief Information Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001; telephone: 301-415-2084; email: Infocollects.Resource@nrc.gov.

B. Submitting Comments

Please include Docket ID NRC-2018-0138 in the subject line of your

comment submission, in order to ensure that the NRC is able to make your comment submission available to the public in this docket.

The NRC cautions you not to include identifying or contact information in comment submissions that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS, and the NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Background

In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35), the NRC is requesting public comment on its intention to request the OMB's approval for the information collection summarized below.

1. *The title of the information collection:* Request for Information Pursuant to 10 CFR 50.54(f) Regarding Recommendations 2.1, 2.3 and 9.3, of the Near Term Task Force Review of Insights from the Fukushima Dai-ichi event.

2. *OMB approval number:* 3150–0211.

3. *Type of submission:* Extension.

4. *The form number, if applicable:*

Not applicable.

5. *How often the collection is required or requested:* Once.

6. *Who will be required or asked to respond:* 12 power reactor licensees.

7. *The estimated number of annual responses:* 4 (12 power reactors will each respond once over the course of the three-year clearance period).

8. *The estimated number of annual respondents:* 4 (12 power reactors will each respond once over the course of the three-year clearance period).

9. *The estimated number of hours needed annually to comply with the information collection requirement or request:* 11,000 hours.

10. *Abstract:* Following events at the Fukushima Dai-Ichi nuclear power plant resulting from the March 11, 2011, earthquake and subsequent tsunami, and in response to requirements

contained in section 402 of the Consolidated Appropriations Act (Pub. L. 112–074), the NRC requested information from power reactor licensees pursuant to title 10 of the *Code of Federal Regulations* part 50.54(f). The information requested includes seismic risk assessments and seismic high frequency confirmations. The NRC will use the information provided by licensees to determine if additional regulatory action is necessary. Licensees will have already completed submittals in response to this 50.54(f) request for seismic and flooding walkdown reports, seismic hazard reevaluations, seismic risk assessment, seismic spent fuel pool evaluations, flooding hazard reevaluations, flooding integrated assessments, focused evaluations of local intense precipitation and available physical margin, communications analyses, and initial and final staffing analyses.

Specific Requests for Comments

The NRC is seeking comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?

2. Is the estimate of the burden of the information collection accurate?

3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?

4. How can the burden of the information collection on respondents be minimized, including the use of automated collection techniques or other forms of information technology?
