Updated RAJ-II SAR Revision 10 Change Table

Non-Proprietary Information – Class I (Public)

RAJ-II Safety Analysis Report Revision 10 Change Table

Section	Description of Change	Reason for Change
Section 1.1	Revised the first paragraph to update the revision of the quality assurance program.	Consistency with current revision of the quality assurance program.
Section 1.3.1.1	Revised Outer Container Drawing 105E3738 Revision # to reflect that Sheet 1 is now Revision 11 while Sheets 2 and 3 remain at Revision 10.	Consistency with GNF response to RAI 1.0 in M170059.
Section 1.3.2	Revised Reference 1-1 to update the revision and date of the quality assurance program.	Consistency with current revision of the quality assurance program.
Drawing 105E3738	Revised Sheet 1 to Revision 11 to include an optional Item 47 on the parts list. This item is the container guide and provides operational convenience when loading the inner packaging into the outer packaging.	Consistency with GNF response to RAI 1.0 in M170059.
Section 7.1.1	To provide consistency with the retitled Table 7-1, deleted the word “recommended” in front of “torques provided in Table 7-1.”	Consistency with GNF response to RAI 7.0 in M170059.
Table 7-1	Retitled the table, redefined the torque for all table components to be “wrench tight or as defined in user procedures,” and deleted the note below the table.	Consistency with GNF response to RAI 7.0 in M170059.
Section 7.1.2.1	To provide consistency with the retitled Table 7-1, rephrased “per the torque recommendations in” to “per the torque in.”	Consistency with GNF response to RAI 7.0 in M170059.
