Letter Regarding Draft PDC Report for Discussion

Oklo previously submitted a paper titled "Draft Principal Design Criteria Report" on evaluating the newly finalized Regulatory Guide (RG) 1.232 in order to enable a discussion on how the RG 1.232 could be used for a novel non-LWR. The discussion occurred but the concepts in the report with regard to draft Principal Design Criteria (PDC) were rapidly superseded by a subsequent evaluation.

Because of this, and in accordance with a letter from the NRC dated January 8, 2019, Oklo is requesting a withdrawal of this report, per 10 CFR 2.390 (c)(3), because items (i) - (v) do not apply to the document.

If you have any questions or need any additional information, please contact us at hello@oklo.com or (650) 550-0127.
