A request that the U.S. Nuclear Regulatory Commission (NRC) consent to the transfer of the *ZionSolutions*, LLC (ZS) Facility Operating License Nos. DPR-39 and DPR-48 and the transfer of the generally licensed Independent Spent Fuel Storage Installation (ISFSI) for the Zion Nuclear Power Station (ZNPS), Units 1 and 2, to Exelon was submitted to the U.S. Nuclear Regulatory Commission (NRC) for review on July 24, 2018 as documented in Reference 1. Following the submittal, the NRC approved new License Condition 2.C (17), associated with approval of the License Termination Plan, as documented in Reference 2. Enclosure 1 identifies changes to LTP License Condition 2.C (17) necessary to reflect the license transfer to Exelon.

All changes are administrative in nature and have no impact on the proposed license transfer analysis documented in Reference 1. These changes are being provided as a supplemental revision to the Unit 1 and 2 Facility Operating License changes identified in Attachment 2 to Reference 1.

There are no regulatory commitments made in this submittal. If you should have any questions regarding this submittal, please contact me at (860) 462-9707.
