8/23/78

Secretary of the Commission
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Attention: Docketing and Service Branch

Dear Mr. Secretary:

We have received notice that the Nuclear Regulatory Commission is providing an opportunity for a public hearing concerning the issuance of operating licenses for Units 1 and 2 of the Susquehanna Steam Electric Station now under construction in Salem Township, Lyzerne County, Pennsylvania.

If a public hearing is held, the Bureau of Radiation Protection, Department of Environmental Resources will participate under §2.715(c) of Title 10 CFR.

Please keep us informed concerning any petitions for leave to intervene in this matter.

Sincerely,

Thomas M. Gerusky
Thomas M. Gerusky, Director
Bureau of Radiation Protection

TMG/fm

Re: When it may come to
the Veterans, taxpayers and
property owners. My husband & I
we have suffered both
medically and physically due
to the Monsters (medical plant. P.F.D.
Salon Tony. Lugo
was in a few hundred feet
from home. the field with
our property a high voltage
is being put through, also they
have a blasting & loading.
What you would like to know.
In the early stages of the
Monsters their blasting have
done several thousand of
dollars. we had a contractor
look it over. Only 1 man

Came took a look around
and laughed, is my face
not a soul has been here
since. No Big Shot. Him
mean. Not even this engineer
will live a home in this section
from the easy stages before
ground was broken. A
P.P.S. affixing told a
group. the Law requires
a 2 mile radius. No
property. Why doesn't the
Federal Government enforce
those laws. As for the
D.E.R. they are rather
to the core. One will only
90ft deep. Yet they claim it is
safe from radiation

In the early stages P.P. & I
was all promises. Now
Nothing, they have their palms
buttered the Hell with the
little people. In my opinion
we the common working
people are just as good
if not better. We are honest
that is more than can be
said for politicians, we
are an our early 60's thing
could be a little easier, but
with the monster staring
down our necks, we will
soon be 6 ft under. Nobody
can tell me they (medics) ^{are} safe. I have just a man
^{who} ~~has~~ have developed cancer
from a plant.

It's time some one does
for the little people.

Why should we suffer for
some one else's electricity.

Please stop or enforce
the laws before its too
late.

Sincerely
Mrs Harry J Kallen
