

Ri Salem #1 1 9

July  
13, 1946

Gentlemen

Salem #1 is ready to fuel. A letter from the local fire dept is necessary, from what I have read.

It is my understanding P.S. E. + G. has not received this necessary letter, to date.

I would appreciate your checking on this.

Also may I have the report of the simulated full scale drill that was held?

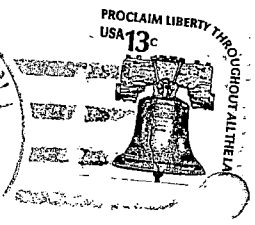

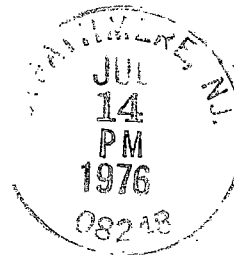

Thank you.

Sincerely,

Mrs RICHARD HORNER JR
