Subject: [EXTERNAL] Gov't shutdown

Goodmorning sir,

I am emailing you as I am genuinely concerned about the safety of the many nuclear power plants within the U.S. because of the Government shutdown. Are the power plants affected by the shutdown or are they still fully staffed and maintained and not just being left alone. I sincerely hope the shut down does not affect these powerplants in anyway. I have been frantically searching the internet for any information on this and no one seems to be asking that question or even concerned. Please write back soon and thank you for your time.

NRC Exec Sec,

We received the attached e-mail and after further review by DOE, we believe that this falls under NRC purview. Please let me know if you have any questions.

Thank you!
