Dear Mr. Jenkins:

By letter dated March 23, 2017, Portland General Electric Company (PGE) submitted an application for renewal of License No. SNM-2509 for the Trojan Independent Spent Fuel Storage Installation (ISFSI) (Agencywide Documents Access and Management System (ADAMS) Accession No. ML17086A039) for an additional 40 year period beyond the end of the current license term. The original 20 year ISFSI license expires on March 31, 2019. In my letter dated, May 31, 2017, I acknowledged acceptance of your application for a detailed technical review and provided a proposed schedule for the U.S. Nuclear Regulatory Commission (NRC) review (ADAMS Accession No. ML17144A197).

In connection with the NRC staff's technical review, we need the information identified in the enclosed request for additional information (RAI). Discussion of the RAI and RAI response date occurred on February 4, 2019. Per that discussion we request that you provide this information by February 22, 2019.

Please reference Docket No. 72-17 and CAC/EPID No. 001028/L-2017-RNW-0011 in future correspondence related to this request. The NRC staff is available to clarify these questions, and if necessary, to meet and discuss your proposed responses.
