"INFORMATION NEEDED FOR CHANGE OF CONTROL"

Definitions:

Control: Control of a license is in the hands of the person or persons who are empowered to decide when and how that license will be used. That control is to be found in the person or persons who, because of ownership or authority explicitly delegated by the owners, possess the power to determine corporate policy and thus the direction of the activities under the license.

Transferee: A transferee is an entity that proposes to purchase or otherwise gain control of a U.S. Nuclear Regulatory Commission-licensed operation.

Transferor: A transferor is an NRC licensee selling or otherwise giving up control of a licensed operation.

Information Needed for Transfer of Control

Licensees must provide full information and obtain prior written consent before transferring control of the license. Provide the following information concerning changes of control by the applicant (transferor and/or transferee, as appropriate). If any items are not applicable, so state.

1. Provide a complete description of the transaction (transfer of stocks or assets, or merger). Indicate whether the name has changed and include the new name. Include the name and telephone number of a licensee contact whom the NRC may contact if more information is needed.

Dessarrolladora J. A. Inc. will no longer own or operate the nuclear gauge license.
 Dessarrolladora J. A. Inc. will sell the nuclear gauge to Southwest Construction Group.
 Southwest Construction Group will be the new owner of the nuclear gauge license.

Dessarrolladora J. A. Inc.
 NRC 52-31266-01
 Docket Number 030-37515

REC'D IN LAT

1/24/19 (via fax)

611230

NMSS/RGN1 MATERIALS-002

- 2. Describe any changes in personnel or duties that relate to the licensed program. Include training and experience for new personnel.

The change to the program. New authorized users and new RSO.
RSO will be Luis Burgos Valdespino

- 3. Describe any changes in the organization, location, facilities, equipment or procedures that relate to the licensed program.

No change to the program.
New location. Address listed above.
The facility's procedures and equipment will remain the same.

- 4. Describe the status of the surveillance program (surveys, wipe tests, quality control) at the present time and the expected status at the time that control is to be transferred.

The program is currently active. However, all of the surveillance programs are following NRC regulations and will be maintained until the transfer is complete.

- 5. Confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to NRC, as appropriate. These records include documentation of surveys of ambient radiation levels, and fixed and/or removable contamination, including methods and sensitivity.

All records concerning the facility will be transferred to the transferee. These records will include the documentation of surveys of ambient radiation levels, and fixed and/or removable contamination, including methods and procedures.

- 6. Confirm that the transferee will abide by all constraints, conditions, requirements and commitments of the transferor, or that the transferee will submit a complete description of the proposed licensed program.

Southwest Construction Group will abide by all constraints, conditions, requirements and commitments of the current license.
