RE: License Amendment #21-32388-01

We have a complicated amendment. We are separating out the two addresses on this license. The most recent amendment, you had added the address of 33376 Dequindre Road, Sterling Heights, MI 48310. We now wish to:

1. Take off the license address 33376 Dequindre Road, Sterling Heights, MI 48310.
2. We wish to take off Dr. Srinivas Koneru, MD altogether from our license as both Authorized User and Radiation Safety Officer.
3. We wish to now add Dr. Narsimha R. Gottam as our Radiation Safety Officer/RSO, he is RSO on license #21-32506-01- the letter of his agreement is attached.

If added information or further clarification is needed, we request that this be done via email to minimize any delay in achieving final resolution on the amendment to Laura T. Smith, consulting physicist for location, lsphysics@att.net, since she is best suited to help you with any questions on this subject.

Sincerely,

Thank you,
