Hello John,
Maxxim Shared Services, LLC was the previous name for one of our licensees, Contura Energy Services, LLC. We amended their license, with the new name in 2016. We conducted an on-site inspection at their office location in Coeburn, VA on May 4, 2018. Our records show that they were also inspected in May of 2013. Here is an excerpt from our inspector's May 2018 report.

Contura Energy Services, LLC (CES) is part of Alpha Natural Resources and located in the Spectra Laboratories building. CES is authorized for the use of Cs-137 and Am-241 in Troxler Model 3400 Series portable gauges. At the time of inspection, CES possessed one (1) Troxler Model 3411 portable gauge. Gary Adams is the Radiation Safety Officer (RSO) and an Authorized User (AU) for this license. Other members of the staff included: Van Davis Director - Preparation, Blake Hall, Vice President - Operators, Mncent Gilmer, Laboratory Manager, and Ralph McCoy, Lead Technician.

Not really sure what an "indirect Change of Control" is, but hopefully this information was helpful. Let me know if you need anything else.

Best,
Mike

John,

PA – 1107 was terminated back on May 13, 2017.
As for PA – 1109 & PA – G0153, they were combined into a new license PA – 1579 “Cumberland Contura, LLC”.
This license (PA-1579) was issued on August 7, 2017 and is still active.

And of their last inspection dated 08/16/2017 there were no listed violations.

Please let me know if you need any further information.

Thanks,
