Re: The Lash Materials Company – License Number 34-26487-02  
License Amendment Application

Dear Materials Licensing Branch,

Please accept this letter and corresponding application as The Lash Asphalt Materials Company's request for an amendment of the existing U.S. Nuclear Regulatory Commission Materials License, License Number 34-26487-02, expiring March 31, 2021 (License), issued for the use of portable moisture density and asphalt content gauges. The purpose of this application is to amend the License to change the name on the license from The Lash Asphalt Materials Company to NLS Asphalt and Paving Inc. While the name on the License will be changing, ownership will remain the same. Also, we would like to change the mailing address to 67925 Bayberry Drive, Suite B Saint Clairsville, Ohio 43950. These amendments are listed as one and two in the materials license.

Please be aware that NLS Asphalt & Paving would like to have this amendment processed as soon as reasonably possible and prior to the start of the 2019 asphalt paving season. Therefore, your attention to this request is greatly appreciated. In addition, it is NLS's understanding that there are no fees associated with this License amendment request. If this is not correct and an application fee will be due to finalize this amendment, please do not hesitate to contact me at your earliest convenience. Should you have any questions or further information is necessary, I can be reached at (740) 310-1938. Thanks in advance for your cooperation and understanding.

Sincerely,

Edward L. Hoffman  
Radiation Safety Officer
