Dear Mr. Gilliland:

We have reviewed your November 7, 2018 and November 28, 2018 letters (NRC Accession No. ML18317A247 and ML18333A181, respectively) necessitating NRC review and consent to a Transfer of Control of the above referenced license, via indirect transfer of the licensee to newly formed subsidiaries – Eurofins BioPharm Product Testing Columbia, Inc., and Eurofins EAG Agrosience, LLC – of the licensee's parent corporation Eurofins EAG Holding, Inc..

Upon review, we have noted that the application is unclear as to whether the licensee's name – as listed on the NRC License – is being changed and – if so – what the new name will be. In addition, the application is unclear as to whether it wishes to update Item 10 to the licensee's license, to include the names of the subsidiaries with the locations of use. Finally, the application stated that the transfer of control would be effective on January 1, 2019. However, no confirmation of the transfer has been received in our office, to date.

To facilitate our continued review of your request, please provide the following additional information – via a signed and dated cover letter:

1. Clarify the licensee's new name – to be listed on the licensee's license.
2. Specify whether you wish to amend the locations of use to include the names of the legal entities, together with the addresses.
3. Attach a signed and data letter including a signed copy of the merger agreement, confirming completion of the transaction.

Please provide the requested information within 14 days of this message (on or before February 20, 2019). Include a signed and dated cover letter transmitting your response. Submission of your response as a pdf file attached to an email or via facsimile will allow for the quickest processing. Please call or email me with any questions you may have, or if you are unable to respond by the date suggested above. Thank you for your prompt attention to this matter.

Please do not hesitate to call should you have any additional questions.

Sincerely,
