Docket No. 50-186

AMENDMENT TO INDEMNITY AGREEMENT NO. E-45
AMENDMENT NO. 14

Effective Feb. 12, 2019, Indemnity Agreement No. E-45, between The Curators of the University of Missouri, and the U.S. Nuclear Regulatory Commission, dated December 29, 1965, as amended, is further amended as follows:

Item 2 of the Attachment to the indemnity agreement is deleted in its entirety and the following substituted therefor:

Item 2 – License number or numbers

R-103 (From 12:01 a.m., January 4, 2017)

Item 3 of the Attachment to the indemnity agreement is deleted in its entirety and the following substituted therefor:

Item 3 – Location (From 12:01 a.m., January 4, 2017)

The University of Missouri-Columbia Research Reactor (MURR) facility is situated on a 7.5-acre lot in the central portion of Research Commons, an 84-acre tract of land approximately one mile southwest of the University of Missouri (MU) at Columbia's main campus. The restricted, or licensed, area is that area inside the fenced, 7.5 acre lot surrounding the MURR facility itself. The MURR site description is provided in MURR Technical Specification 5.1.a. A map of the MURR licensed area is provided as Figure 2 in Enclosure 2 of MURR's amendment request, by letter dated April 17, 2018.

Historical license number changes to the original indemnity agreement and attachments thereof were not previously recorded. Therefore, the following changes are listed here as a matter of record:

On October 11, 1966, the Special Nuclear Material (SNM) License No. SNM-934 expired, and Construction Permit No. CPRR-68 was converted to Reactor Operating License No. R-103.

Enclosure

FOR THE UNITED STATES NUCLEAR REGULATORY COMMISSION

Anthony Bowers, Chief
Financial Projects Branch
Division of Licensing Projects
Office of Nuclear Reactor Regulation
