

**UNITED STATES
NUCLEAR REGULATORY COMMISSION**
REGION I
2100 RENAISSANCE BLVD.
KING OF PRUSSIA, PA 19406-2713

February 15, 2019

MEMORANDUM TO: Christopher G. Miller, Director
Division of Inspection and Regional Support
Office of Nuclear Reactor Regulation

FROM: Daniel S. Collins, Director */RA/*
Division of Reactor Projects
Region I

SUBJECT: CY 2018 BASELINE INSPECTION COMPLETION

This memorandum documents the results of Region I's implementation of the Reactor Oversight Process (ROP) Baseline Inspection Program. Region I has completed a review and audit, per Region I DRP/DRS Joint Policy 28/0550, and determined that the ROP Baseline Inspection Program was successfully completed for CY 2018.

Reactor Program System Report 8a is enclosed and provides the completion status of baseline inspection procedures for all Region I sites. Note that along with the status, some procedures have attached notes as described in IMC 0306. In some cases, procedures are performed on a biennial or triennial frequency and were not required to be performed in CY2018. Also, in some cases, procedures were considered complete with less than the minimum samples because sufficient samples were not available. In other cases, all requirements of the procedure were met by work done in another procedure. Lastly, in some cases, procedures are marked as not applicable if they were not required to be performed this inspection cycle.

RPS/IR Report 8a does not include security and safeguards inspection program status. However, the baseline program for security and safeguards for all Region I sites was also verified complete for CY2018.

Enclosure: As stated

Contact: Marc S. Ferdas, Team Leader, Division of Reactor Projects
Technical Support and Assessment Team
