

Curriculum Vitae for Gordon R. Thompson

January 2016

Professional expertise

- Technical and policy analyses in the fields of energy, environment, sustainable development, human security, and international security.

Current appointments

- Executive director, Institute for Resource & Security Studies (IRSS), Cambridge, Massachusetts (since 1984).
- Senior research scientist, George Perkins Marsh Institute, Clark University, Worcester, Massachusetts (since 2002).

Education

- D.Phil., applied mathematics, Oxford University (Balliol College), 1973.
- B.E., mechanical engineering, Univ. of New South Wales, Sydney, Australia, 1967.
- B.Sc., mathematics & physics, Univ. of New South Wales, 1966.

Project sponsors and tasks (selected)

- Individual donors to IRSS, 2013-present: development of analytic and citizen-engagement methodologies to assist broad-based societal navigation in the 21st century.
- Program on Science and Global Security (Princeton University), Managing the Atom Project (Harvard University), and China Arms Control and Disarmament Association, 2011-2015: technical and policy analyses, participation in expert workshops, and public presentations on risk and sustainability issues re. nuclear fuel reprocessing worldwide.
- National Consortium for the Study of Terrorism and Responses to Terrorism, University of Maryland, 2015: technical advice re. a study on the potential for violent, non-state actors to acquire fissile material.
- A US-wide consortium of environmental organizations, 2012-2014: technical and policy analyses and provision of expert testimony re. management of spent nuclear fuel.
- Greenpeace Canada, 2007-2014: technical and policy analyses on risk and sustainability issues re. the use of nuclear energy.
- Nautilus Institute, 2011-2013: technical analyses, and participation in expert workshops in China and ROK, re. risks arising from management of spent nuclear fuel.
- Sierra Club Canada, 2013: analyses of risk issues and provision of expert testimony re. a proposed deep geologic repository for radioactive waste in Ontario.
- Attorney General of Massachusetts, 2006-2008 and 2011-2012: analyses of risk issues and provision of expert testimony re. the Pilgrim and Vermont Yankee nuclear power plants; work in the later period took account of the Fukushima accident of 2011.

- Nautilus Institute and RMIT University, 2009-2011: policy and technical analyses on transfer of nuclear power technology to consumer countries.
- CharityHelp International and other sponsors, 2009-2011: co-convening of the Connectivity to Enhance Global Human Security initiative.
- US Institute of Peace and other sponsors, 2005-2011: co-convening of the Working Group on US-Iran Health Science Cooperation.
- Texans for a Sound Energy Policy, 2009: review of the US Nuclear Regulatory Commission's Draft Waste Confidence Decision.
- Green Energy Coalition, Pembina Institute, and Ontario Sustainable Energy Association, 2008: provision of testimony to the Ontario Energy Board.
- World Health Organization, 2006-2007: policy analyses on the potential for “health-bridge” programs to improve cooperation within and between nations.
- Sierra Club Canada, 2006-2007: preparation of a strategy for development of planning and public-engagement tools to facilitate action on climate change.
- Mothers for Peace, California, 2002-2009: analyses of risk issues and provision of expert testimony re. the Diablo Canyon nuclear power plants.
- Riverkeeper, New York, 2007-2008: analyses of risk issues and provision of expert testimony re. the Indian Point nuclear power plants.
- Minnesota Center for Environmental Advocacy, and Minnesotans for an Energy Efficient Economy, 2005-2006: technical analyses and provision of expert testimony re. the Monticello nuclear power plant.
- California Energy Commission, 2005: technical analyses and participation in an expert workshop re. safety and security of commercial nuclear facilities.
- Committee on Radioactive Waste Management (a committee appointed by the UK government), 2005: provision of expert advice and technical analyses on long-term safety and security of radioactive waste management.
- Legal Resources Centre, Cape Town, South Africa, 2004-2007: technical analyses re. the proposed South African pebble bed modular nuclear reactor.
- STAR Foundation, New York, 2002-2004: review of planning and actions for decommissioning of research reactors at Brookhaven National Laboratory.
- Attorney General of Utah, 2003: technical analyses and provision of expert testimony re. a proposed national storage facility for spent nuclear fuel.
- Citizens Awareness Network, Massachusetts, 2002-2003: technical and policy analyses on robust storage of spent nuclear fuel.
- Tides Center, California, 2002-2004: analyses for the Santa Susana Field Laboratory (SSFL) Advisory Panel re. the history of releases of hazardous material from the SSFL.
- Orange County, North Carolina, 1999-2002: assessment of risk issues associated with the Harris nuclear power plant, identification of risk-reduction options, and provision of expert testimony.
- William and Flora Hewlett Foundation and other sponsors, 1999-2009: research and project development for conflict-management projects, through IRSS's International Conflict Management Program.
- STAR Foundation, New York, 2000-2001: assessment of risk issues re. the Millstone nuclear power plant, identification of risk-reduction options, and provision of expert testimony.

- Massachusetts Water Resources Authority, 2000: assessment of risks re. water supply and wastewater systems that serve greater Boston.
- Canadian Senate, Energy & Environment Committee, 2000: review of risk issues re. the Pickering Nuclear Generating Station.
- Greenpeace International, Amsterdam, 2000: review of impacts associated with the La Hague nuclear complex in France.
- Government of Ireland, 1998-2001: development of a framework for assessment of impacts and alternative options associated with the Sellafield nuclear complex in the UK.
- Clark University, Worcester, Massachusetts, 1998-1999: participation in a confidential review of outcomes of a major foundation's grants related to climate change.
- UN High Commissioner for Refugees, 1998: co-development of a strategy for conflict management in the CIS region.
- General Council of County Councils (Ireland), W. Alton Jones Foundation (USA), and Nuclear Free Local Authorities (UK), 1996-2000: assessment of environmental and economic issues re. nuclear fuel reprocessing in the UK; identification of alternative options.
- Environmental School, Clark University, Worcester, Massachusetts, 1996: session leader at the Summer Institute, "Local Perspectives on a Global Environment".
- Greenpeace Germany, Hamburg, 1995-1996: a study on war, terrorism and nuclear power plants.
- HKH Foundation, New York, and Winston Foundation for World Peace, Washington, DC, 1994-1996: studies and workshops on preventive action and its role in US national security planning.
- Carnegie Corporation of New York, Winston Foundation for World Peace, Washington, DC, and others, 1995: collaboration with the Organization for Security and Cooperation in Europe to facilitate improved coordination of activities and exchange of knowledge in the field of conflict management.
- World Bank, 1993-1994: a study on management of data describing the performance of projects funded by the Global Environment Facility (joint project of IRSS and Clark University).
- International Physicians for the Prevention of Nuclear War, 1993-1994: a study on international control of weapons-usable fissile material.
- Government of Lower Saxony, Hannover, Germany, 1993: analyses of standards for radioactive waste disposal.
- University of Vienna (using funds supplied by the Austrian government), 1992: review of radioactive waste management at the Dukovany nuclear power plant, Czech Republic.
- Sandia National Laboratories, 1992-1993: advice to the US Department of Energy's Office of Foreign Intelligence.
- US Department of Energy and Battelle Pacific Northwest Laboratories, 1991-1992: advice for the Intergovernmental Panel on Climate Change regarding the design of an information system on technologies that can limit greenhouse gas emissions (joint project of IRSS, Clark University and the Center for Strategic and International Studies).
- Winston Foundation for World Peace, Boston, Massachusetts, and other funding sources, 1992-1993: development and publication of recommendations for strengthening the International Atomic Energy Agency.

- MacArthur Foundation, Chicago, Illinois, W. Alton Jones Foundation, Charlottesville, Virginia, and other funding sources, 1984-1993: policy analyses and public education on a “global approach” to arms control and disarmament.
- Energy Research Foundation, Columbia, South Carolina, and Peace Development Fund, Amherst, Massachusetts, 1988-1992: review of the US government's tritium production (for nuclear weapons) and its implications.
- Coalition of Environmental Groups, Toronto, Ontario (using funds supplied by Ontario Hydro under the direction of the Ontario government), 1990-1993: coordination and conduct of analyses and provision of testimony on accident risk of nuclear power plants.
- Greenpeace International, Amsterdam, Netherlands, 1988-1990: review of probabilistic risk assessment for nuclear power plants.
- Bellerive Foundation, Geneva, Switzerland, 1989-1990: planning for a June 1990 colloquium on disarmament, and editing of proceedings.
- Iler Research Institute, Harrow, Ontario, 1989-1990: analyses of regulatory response to boiling-water reactor accident potential.
- Winston Foundation for World Peace, Boston, Massachusetts, and other funding sources, 1988-1989: analyses of future options for NATO (joint project of IRSS and the Institute for Peace and International Security).
- Nevada Nuclear Waste Project Office, Carson City, Nevada (via Clark University), 1989-1990: analyses of risk aspects of radioactive waste management and disposal.
- Ontario Nuclear Safety Review (conducted by the Ontario government), Toronto, Ontario, 1987: review of safety aspects of CANDU reactors.
- Washington Department of Ecology, Olympia, Washington, 1987: analyses of risk issues re. a proposed radioactive waste repository at Hanford.
- Natural Resources Defense Council, Washington, DC, 1986-1987: provision of expert testimony on risk issues re. military production reactors at the Savannah River Plant, South Carolina.
- Lakes Environmental Association, Bridgton, Maine, 1986: analyses of federal regulations for disposal of radioactive waste.
- Greenpeace Germany, Hamburg, 1986: participation in an international study on the hazards of nuclear power plants.
- Three Mile Island Public Health Fund, Philadelphia, Pennsylvania, 1983-1989: studies re. the Three Mile Island nuclear power plant and emergency response planning.
- Attorney General of Massachusetts, 1984-1989: analyses of risk issues re. Seabrook nuclear power plant, and provision of expert testimony.
- Union of Concerned Scientists, Cambridge, Massachusetts, 1980-1985: studies on energy demand and supply, nuclear arms control, and the safety of nuclear installations.
- Conservation Law Foundation of New England, Boston, Massachusetts, 1985: provision of expert testimony on cogeneration potential at a Maine paper mill.
- Town & Country Planning Association, London, UK, 1982-1984: coordination and conduct of a study on safety and radioactive waste implications of the proposed Sizewell nuclear power plant, and testimony to the Sizewell Public Inquiry.
- US Environmental Protection Agency, Washington, DC, 1980-1981: assessment of the cleanup of Three Mile Island Unit 2 nuclear power plant.

- Center for Energy & Environmental Studies, Princeton University, Princeton, New Jersey, and Solar Energy Research Institute, Golden, Colorado, 1979-1980: studies on the potentials of renewable energy sources.
- Government of Lower Saxony, Hannover, Federal Republic of Germany, 1978-1979: coordination and conduct of studies on safety and security aspects of the proposed Gorleben nuclear fuel cycle center.

Other experience (selected)

- Principal investigator, project on “Exploring the Role of ‘Sustainable Cities’ in Preventing Climate Disruption”, involving IRSS and three other organizations, 1990-1991.
- Visiting fellow, Peace Research Centre, Australian National University, 1989.
- Principal investigator, Three Mile Island emergency planning study, involving IRSS, Clark University and other partners, 1987-1989.
- Co-leadership (with Paul Walker) of a study group on nuclear weapons proliferation, Institute of Politics, Harvard University, 1981.
- Foundation (with others) of an ecological political movement in Oxford, UK, which contested the 1979 Parliamentary election.
- Conduct of cross-examination and presentation of expert testimony, on behalf of the Political Ecology Research Group, at the 1977 Public Inquiry into proposed expansion of reprocessing capacity at Windscale, UK.
- Conduct of research on plasma theory (while a D.Phil student), as an associate staff member, Culham Laboratory, UK Atomic Energy Authority, 1969-1973.
- Service as a design engineer on coal-fired power plants, New South Wales Electricity Commission, Sydney, Australia, 1968.
