Dear Chairman Svinicki and NRC Commissioners:

As a neighbor to Seabrook Station nuclear power plant, I am writing to urge you to seriously consider the Emergency Petition filed by C-10 on February 13, and to take no further action on the requested license amendment or extension until the full resolution of the contentions brought by C-10 relative to the plant's degraded concrete.

With 11 more years on Seabrook's current operating license, there is time for the NRC to do it right. Please permit the democratic process to proceed. On behalf of my family, thank you.

Philip Hurzeler PhD
