

# Innovation at the NRC

## Who We Are

We are a group of NRC staff eager to support innovation by forging a clear path for employees to get innovative ideas to decision-makers.

## What We're Doing

We are fostering an innovative culture and transforming the "way we do business" through public and private sector outreach, cross-office coordination, and the leveraging of diverse skill sets.

## Why now?

The world around us is changing rapidly and to continue to fulfill NRC's mission we are envisioning new ideas to lead and serve innovatively.
