Great Falls, MT 59405

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 25-27425-01

Dear Mr. Sharp,

By NRC Form 314 dated December 7, 2018, you informed the U.S. Nuclear Regulatory Commission (NRC) that you wished to terminate your NRC radioactive materials license. The NRC Form 314, stated that radioactive material had been disassembled and removed by the manufacturer and transferred to a Texas Radioactive Material Licensee.

The supporting documentation to the NRC Form 314 also provided a copy of the latest leak test result and manufacturer transfer receipt documentation. The leak test results documented that there was no evidence of leakage of radioactive material from the sealed source. The NRC staff has reviewed the supporting documentation to your NRC Form 314. Based on the documentation submitted and a review of your historical file, the staff concluded that all licensable radioactive material has been removed by the manufacturer, transferred to a Texas Radioactive Material Licensee, and that all licensable radioactive material has been removed from the facility. Therefore, the facility located at 1300 28th Street South, Great Falls, Montana 59405, is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." Based on these conclusions, no further remediation or actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 6 to License No. 25-27425-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at (817) 200-1286 if you have questions or require clarification on any of the information stated above.

Sincerely,

/RA/

Latischa M. Hanson, M.Sc., Health Physicist
Materials Licensing and Inspection Branch
