RADIATION LABORATORY

March 5, 2019

U.S. Nuclear Regulatory Commission
ATTN: Document Control Desk
Washington, DC 20555-0001

REFERENCE: University of Massachusetts-Lowell Research Reactor
Docket No. 50-223; License No. R-125

SUBJECT: Response to NRC letter dated November 5, 2018 – Request for Additional Information
Regarding the Renewal of Facility Operating License No. R-125 for the University of
Massachusetts-Lowell Research Reactor Primarily Related to Technical Specifications

Please find the enclosed response documents for the above referenced request for additional information concerning the renewal of license No. R-125. The documents includes the RAI responses, the revised technical specifications, and the original technical specifications marked with the revisions.

Please direct any requests for additional information regarding this submittal to Mr. Leo Bobek, Reactor Supervisor at the above address.

I declare under penalty of perjury that the foregoing is true and correct.

Sincerely,

A handwritten signature in black ink, appearing to read 'Leo M. Bobek'.

Leo M. Bobek
Reactor Supervisor, Radiation Laboratory
