RE: Docket ID NRC-2018-0279 Pilgrim Nuclear: Consideration of Approval of Transfer of License and Conforming Amendment

As a concerned citizen living on Cape Cod (near the affected area), I write in SUPPORT of both the Commonwealth of Massachusetts Petition for Leave to Intervene and Hearing Request in Docket No. 50-293 & 72-1044 and Pilgrim Watch's in the same proceeding filed February 20, 2019.

The safety of Pilgrim has been a major concern for years for those of us living on Cape Cod. We are thrilled it is finally closing, but given the history (it should have been forced to close many years ago) we know that we cannot assume its closure will be done safely.

I support in full the contentions, bases and facts brought forward in both petitions, and look forward to a hearing required to protect our communities now and into the future. Thank you for this opportunity to provide input into this process.

Sincerely,
