CAC/Docket No./EPID: 001028/07200064/L-2017-FPR-0036

SUMMARY

Received email response to the outgoing email shown below. In both, the follow-up conversation and in the response email the licensee stated that the omitted sentence(s) regarding changes in authorized possession limits was an oversight. The licensee committed to submitting a letter addressing the shortcomings of the response to changes in authorized possession limits. Expect to receive the letter next week.

outgoing email:
In previous submittals and in your submittals for Millstone (ML18361A575); North Anna (ML18361A577); and Surry (ML18361A578), the response to 10 CFR 72.30(c)(3), the question of whether there had been changes in authorized possession limits for the site was answered. However, for Kewaunee's first triennial update (ML15349B005), the response to 10 CFR 72.30(c)(3) is incomplete and that same incomplete response appears in the most recent triennial update (ML18361A576). Additional information is required. Would you prefer to have a clarification conference call or a RAI issued? The closeout letter for the Dominion sites cannot move forward until Kewaunee's 10 CFR 72.30(c)(3) response is resolved.
