**Attachments:** [Fuel Qualification Memo Based on FW Amd 4.docx](#)

---

John,

As previously discussed, attached is a draft memo on our proposed approach to fuel qualification. The information is based on HI-STORM FW Amd 4, but the same approach would be used for other amendments. After you and your staff have a chance to look at this document, we would plan to send it in officially in response to the HI-STORM FW Amd 4 RAI.

We would be happy to have a public meeting on this item, if you would like, but we just want to find an efficient way to keep things moving. So if this approach is clear, then we will just submit it officially, but if your staff would like to discuss, we would come down at the earliest convenient time.

Thanks,  
Kim
