

NUCLEAR REGULATORY COMMISSION

10 CFR Part 73

[NRC-2014-0118]

RIN 3150-AJ41

Enhanced Security of Special Nuclear Material

AGENCY: Nuclear Regulatory Commission.

ACTION: Revised regulatory basis; extension of comment period.

SUMMARY: On March 1, 2019, the U.S. Nuclear Regulatory Commission (NRC) requested comments on a draft revised regulatory basis to support a rulemaking that would update special nuclear material physical protection requirements, including those applicable to fuel cycle facilities. The public comment period originally was scheduled to close on April 1, 2019. The NRC has decided to extend the public comment period to allow members of the public more time to develop and submit their comments.

DATES: The due date of comments requested in the document published on March 1, 2019 (84 FR 6980) is extended. Comments should be filed no later than April 19, 2019. Comments received after this date will be considered, if it is practical to do so, but the NRC is able to ensure consideration only for comments received on or before this date.

ADDRESSES: You may submit comments by any of the following methods:

- **Federal Rulemaking Web Site:** Go to <http://www.regulations.gov> and search for Docket ID NRC-2014-0118. B. Submitting Comments

Please include Docket ID NRC-2014-0118 in your comment submission.

The NRC cautions you not to include identifying or contact information that you do not want to be publicly disclosed in your comment submission. The NRC will post all comment submissions at <http://www.regulations.gov> as well as enter the comment submissions into ADAMS. The NRC does not routinely edit comment submissions to remove identifying or contact information.

If you are requesting or aggregating comments from other persons for submission to the NRC, then you should inform those persons not to include identifying or contact information that they do not want to be publicly disclosed in their comment submission. Your request should state that the NRC does not routinely edit comment submissions to remove such information before making the comment submissions available to the public or entering the comment into ADAMS.

II. Discussion

On March 1, 2019, the NRC published a document in the *Federal Register* (84 FR 6980) requesting comments on a draft revised regulatory basis to support a rulemaking that would update special nuclear material physical protection requirements, including those applicable to fuel cycle facilities. The public comment period was originally scheduled to close on April 1, 2019. By letter dated March 11, 2019 (ADAMS Accession No. ML19071A014), the Nuclear Energy Institute requested that the NRC extend the deadline to comment by 18 days, to allow time to develop and submit comments after a scheduled public meeting on April 3, 2019, related to generic fuel cycle regulatory initiatives, including this rulemaking. The NRC is granting this request

and will extend the public comment period until April 19, 2019, to allow members of the public more time to submit their comments.

Dated at Rockville, Maryland, this 15th day of March, 2019.

For the Nuclear Regulatory Commission.
