General Comment

As a longtime New England energy advocate and coordinating committee member of the Consumer Liaison Group of ISO-NE, I know the major effect the closure of a nuclear power plant has on the surrounding community. By selling Pilgrim Nuclear Power Station to Holtec, Plymouth can avoid decades of stagnation as the plant sits in SAFSTOR while waiting for the trust fund to grow. Holtecs plan also includes retaining some of Pilgrims current employees, which would immediately help Plymouths economic viability. Lets begin Plymouths new economic future now and approve Pilgrims sale to Holtec.
